

fast Falling Weight Deflectometer, fastFWD

Local Geotechnics (LG): only company in WA with fastFWD

We are pleased to announce that **fastFWD** (mainroads WA Approved) has been added in our pavement investigation and testing services. fastFWD can be used for pavement investigation for highways, local roads, airport pavements, harbor areas to determine:

- evaluate physical properties
- determine structural capacity
- assess pavement quality
- back calculation of pavement layer moduli
- estimates of pavement life

Unlike other conventional FWD machine, FastFWD has the speciality of **Quick data collection** (save at least 20% time in the field), **NO hydraulic system**, **NO fuel spilling**, **Environmental friendly**.

If you have any questions in regards to our services or we can be of further assistance, please do not hesitate to contact Local Geotechnics.
